Safe Routes to School

Safe Routes to School (SR2S) initiatives are underway in many Michigan elementary schools. SR2S teams are working to accomplish two important goals; to increase the safety of routes school children use to walk and bicycle to school and to increase the number of students walking and bicycling on these routes. Local law enforcement agencies participate by assisting schools with traffic enforcement efforts. For information on how you can be involved in SR2S, go to www.saferoutesmichigan.org.
